BACKGROUND INFORMATION

The conference is being organised in 2025 by the Warsaw University of Technology, Faculty of Civil Engineering (WUT CEF), Department of Production Engineering and Construction Management together with the Scientific Revitalization Society.

The conference is held under the patronage of: Association of European Experts in Building and Construction (AEEBC), Klaster Centralnego Okręgu Przemysłowego im. E. Kwiatkowskiego, Polskie Stowarzyszenie Menedżerów Budownictwa (PSMB), Polski Związek Pracodawców Budowlanych (PZPB), Towarzystwo Urbanistów Polskich (TUP), Korporacja Radex S.A.

THE MAIN OBJECTIVE OF THE CONFERENCE IS TO DEVELOP THE BEST METHODS OF COOPERATION BETWEEN STAKEHOLDERS IN URBAN PLANNING PROCEDURES, SPATIAL PLANNING AND REVITALISATION.

The conference organisers envisage a discussion on the results of the latest research on the development of post-industrial areas, in the context of the amended Law on Planning and Spatial Development. The meeting will also allow for an exchange of experience on the rational use of urban space, considering the needs and expectations of local communities.

Both the organisers and the patrons of the Conference have focused its thematic scope on the particularly important issue of combining science and practical experience, and therefore it has been assumed that its participants will be academics from construction and related faculties, representatives of managerial staff, representing the main participants in the construction investment process, and employees of central and local government offices.

Note: the conference will be held in Polish with translation to English.

TOPICS OF THE CONFERENCE

Contemporary concepts, methods, models, trends and innovations in urban revitalization:

- revitalization of post-industrial and chemically degraded sites,
- rational management of space in urban areas
